SUMMARY

I'm Radja Aulia Al Ramdani, a Software Engineer and Full Stack Developer specializing in backend development with Laravel. With a strong foundation in software engineering, I have over a year of professional experience as a Full Stack Web Developer and six months of internship in full-stack development. My technical expertise spans front-end and back-end technologies, as well as WordPress development, leveraging its capabilities for creating dynamic and user-friendly websites. I'm committed to delivering high-quality work and am eager to contribute to dynamic software development teams. I am open to exploring potential opportunities.

WORK EXPERIENCE

PT STARTCODE TECHNOLOGY DIGITAL – Bogor, Indonesia
